

## ULTRASONIC Water Meter Payload Description

**Reference Payload: - fefe681040250024003378a6130a870100000a080000000fa500010a180a28011316**

fe	Default Value
fe	Default Value
68	Start Byte
10	UWM Byte
40250024003378	UWM Address
a6	Control address
13	Data Length
0a	Data identification D0
87	Data identification D1
01	Serial Number
00000a08	Forward Volume {(Hex to Decimal)/100 =25.68m3}
0000000f	Reverse Volume {(Hex to Decimal)/100 =0.15m3}
a5	Battery Voltage (a5=165, voltage= (165+200)*10=3650mV=3.65V)
00	STA 1, Status Byte
01	STA 2, Status Byte
0a180a	month, Day, hour
2801	Temperature magnifies by 10 times Hex, unit. °C
13	Check Sum
16	End character
